

\*\*

## Experience

### Digital Designer / Product Designer

6 years experience leading multiple projects on in-house product teams, enterprise, consumer and freelance. Evolved experiences and brand for design systems, interactions, and accessibility.

\*currently available for hourly freelance design work for web, product roles emphasizing brand. [Let's chat.](#) ✨

### Freelance | '23-present

Brand identity and web design for non-profits and small businesses, with digital and print deliverables.

### Tripadvisor | '21-'22

Redesigned a web app that enables hoteliers and restauraners to manage business reviews, content and analytics globally. Drove design system growth, ideation, execution & documentation.

### Microsoft | '19-'21

Crafted an intuitive UI/UX experience for machine learning models built on Microsoft Sharepoint sites. Adapted AI+ML branding for smart templates that archive millions of paper documents.

### Chase | '18-'19

Made designs for investing tools and education-based articles for consumers to trade and build portfolios online and learn about investing. Focused on research.

### Quadrant2 | '17-'18

Designed a safety-focused app for undocumented migrants with the American Civil Liberties Union.

### Smart Design / Sprinklr | '16-17

Produced design assets for cars, news, and social CMS.

## Education

### The New School / Pratt / NYU ITP | '24

Accepted to Masters in Design with merit scholarships, could not complete because of leave.

### Design Lab / School of Visual Arts | '16

Continued education in graphic design and UX/UI.

### University of Pennsylvania | '15

Bachelor of Arts, visual studies and digital design.

## Skills

Figma, Illustrator, Sketch, After Effects, Premiere Pro
